Features

- Designed to provide position interlock detection for moving guards
- Designed to fit to the leading edge of sliding, hinge or lift off machine guards
- Offer a compact 86mm long body to fit to applications where space is restricted
- 3 pole contacts and choice of 3 conduit entries for wiring versatility
- Head can be rotated to give actuator entry positions
- Flexible actuators and stainless steel head versions are available
- Available with 40N holding force
- Contact blocks are replaceable

Application

- Designed to fit to the leading edge of sliding, hinged or lift off machine guards such that the machine will stop if the machine guards are disturbed
