

NEMA Full Voltage Power Devices
NEMA Rated Full Voltage Starters - Magnetic
CR306, CR386 Magnetic Starters

Nonreversing, Non-combination
NEMA Sizes 00-9 with Thermal Overload Relay
600 Volts Maximum 50/60 Hertz

Application

GE's magnetic motor starters listed here may be used for starting full-voltage, nonreversing, single-speed ac motors up to 1600 horsepower, 600 Volts maximum, providing protection to the motor against running or stalled overloads. Their compact size and ease of wiring make them especially suitable for motor control centers, custom-type control panels, and switchgear equipment. Refer to page 1-9 for features of basic starter.

Product Number Selection Instructions

- Specify starter by complete Product Number.
Example: CR306C103 is a Size 1 starter with 230-240-Volt, 60-Hertz coil and in Type 1 general-purpose enclosure @ **\$246.00, GO-10G.**
- The final letter of the Product Number denotes extra auxiliary contacts (sometimes referred to as auxiliary interlocks). Order the desired extra auxiliary contacts by replacing the final letter with one from first column of auxiliary interlock table (see page 1-136).
Example: CR306C103AAB is Size 1 starter with one extra normally open, auxiliary contact @ **\$312.00, GO-10G.**
- Starter forms are available with coils of other ratings than those shown on pages 1-11 to 1-12. Refer to coil suffix table, page 1-8 for information. To order forms with other coil ratings, insert suffix from coil table in place of fifth and sixth numbers of listed starter Product Number shown on pages 1-11 to 1-12. (Contact your nearest GE Energy Representative for other available starter coils not shown in table.) Example: A CR306C102 NEMA Size 1, three-pole starter in Type 1 enclosure with 24-Volt, 60-Hertz coil becomes a CR306C124 Product Number.
- For continuous rated motors with a service factor of 1.15 to 1.25 select the heater with maximum motor Amperes equal to or immediately greater than the actual full-load current taken directly from the nameplate of motor. Order heaters by complete Product Number from appropriate heater tables on pages 1-155 to 1-161. **List Price \$9.00 each, GO-10H.** Packaged in quantities of three; must be ordered in multiples of three.
- Order special modifications or forms not listed by complete description using a listed Product Number as reference.
Example: Similar to CR306C104 except with 480/120-Volt control transformer and red indicating light in cover.
Total **List Price \$483.00, GO-10G.**
- Two-phase, four-wire forms are available. Contact nearest GE Energy Representative for pricing and ordering information.
- Standard Coil Ratings**
Standard Voltages (60 Hertz): 24, 115-120, 200-208, 230-240, 265-277, 460-480 and 575-600
Standard Voltages (50 Hertz): 110, 220, 380, 440 and 550
For price adders on special voltage and/or frequency coils, refer to page 1-128.
- 50-Hertz Starters**
Pricing of starters for use on 50 Hertz at standard voltages is the same as shown in table for 60 Hertz. Refer to page 1-6 for three-phase horsepower ratings at 380 Volts, 50 Hertz.

Typical CR306 Size 4 magnetic motor starter

Typical Schematic Diagram for CR306 Starter (NEMA Sizes 00-6)

- 9. Product Notes**
Motor full-load current should not exceed continuous ampere rating of starter.
