

## 1783 Stratix Device

[1783-CMS20DP](#)

Stratix 5200 switch, 18 copper 100/1000 ports, 2 Combo 100/1000 ports, full FW, DLR

### Product Details

| STRATIX FAMILY SELECTION ASSISTANCE - OPTIONAL                                                              |                                                                                     |
|-------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| Type                                                                                                        | Managed Switch                                                                      |
| # of Copper Ports Required                                                                                  | 18                                                                                  |
| # of Fiber Ports Required                                                                                   | None                                                                                |
| Number of Combo Ports(Copper/Fibre)                                                                         | 2                                                                                   |
| Do you need connectivity to an IT environment?<br>(using Cisco technology and tools (CLI, CNA, CiscoWorks)) | Yes                                                                                 |
| Do you need any of these network services?                                                                  | Standard                                                                            |
| Do you need routing capability..?                                                                           | No                                                                                  |
| Do you Need PoE(Power Over Ethernet)                                                                        | No                                                                                  |
| Do you need integrated DLR?                                                                                 | Yes                                                                                 |
| DATA                                                                                                        |                                                                                     |
| Stratix Ethernet Family                                                                                     | Stratix 5200                                                                        |
| Environment                                                                                                 | IP30                                                                                |
| Do you Need more than 2 gigports                                                                            | 20                                                                                  |
| Ethernet Family                                                                                             | Stratix 5200 switch, 18 copper 100/1000 ports, 2 Combo 100/1000 ports, full FW, DLR |
| Additional Details                                                                                          |                                                                                     |
| Mounting                                                                                                    | Din Rail                                                                            |
| Operating Temperature                                                                                       | -40..60 °C (-40...140 °F)                                                           |
