This selection guide is meant to help you make initial decisions for the visualization products that are best suited for your system requirements. For detailed technical specifications, certifications, and environmental specifications, see the documentation links on the front cover of this selection guide.

For assistance and validation in final product selections, consider using the Configuration and Selection tools available at http://www.rockwellautomation.com/en/e-tools/index.html.

What's New

To help you optimize productivity, Rockwell Automation is expanding its portfolio with the PanelView™ 5500 operator interface that is integrated with the Studio 5000 View Designer® application. This integration helps you build modern applications more easily and make data-driven decisions faster. The PanelView 5550 interface offers a wide range of display sizes from 7"…19" with wide screen, touch, and keypad options. In addition, it offers enhanced integration with Logix and an intuitive design environment.

For more information about PanelView 5500, including complete technical specifications, certifications, and environmental specifications, refer to the PanelView 5500 Specifications Technical Data, publication 2715-TD001.

Add Visualization to Your Control System

As a machine builder or end user, you design control solutions with an eye toward how to improve safety, achieve higher levels of performance and efficiency, and better integrate with the rest of the manufacturing operation. To achieve these goals, you need a scalable, modular control system that offers safety, throughput, and information management capabilities to match the requirements of each application.

Visualization products from Rockwell Automation comprise a suite of scalable HMI software and operator interface hardware that provide plant floor machine operators, supervisors, engineers, and business managers a window to critical data and production and process information. All of this information can be obtained from the plant floor and displayed on a local HMI or remotely on a web browser.

Whether it's a machine-level or site-level HMI, a Windows CE platform, a smaller component HMI, or an industrial computer, Rockwell Automation has a portfolio of visualization solutions to match your system requirements.

PanelView HMI Terminals

PanelView™ 5500 terminals, PanelView Plus 7 Performance terminals, PanelView Plus 7 Standard terminals, PanelView Plus 6 terminals, MobileView™ tethered operator terminals, PanelView 800 terminals, Studio 5000 View Designer®, FactoryTalk® View Machine Edition, and FactoryTalk View Site Edition provide premier integration in a number of ways:

- Reduced programming time with Logix native addressing and the ability to browse directly to Logix tags without creating a separate database.
- Simplified interaction of all networks with support for all Core Integrated Architecture® CIP networks including EtherNet/IP™, ControlNet, and numerous other drivers.
- Simplified development time with pre-engineered, pre-tested faceplates for specific motion, drives, and process applications.

PanelView HMI terminals are available with the following levels of control:

- Component Class
- Midrange (Small Control) Class
- Integrated Architecture Class

Component Class

This class combines a simple, powerful control core, a full suite of associated components, and a dedicated set of class-leading application development tools. These features provide enough control to meet machine control and end-customer requirements in the shortest possible time.

Typical Configurations

Micro800® with PanelView 800

Midrange (Small Control) Class

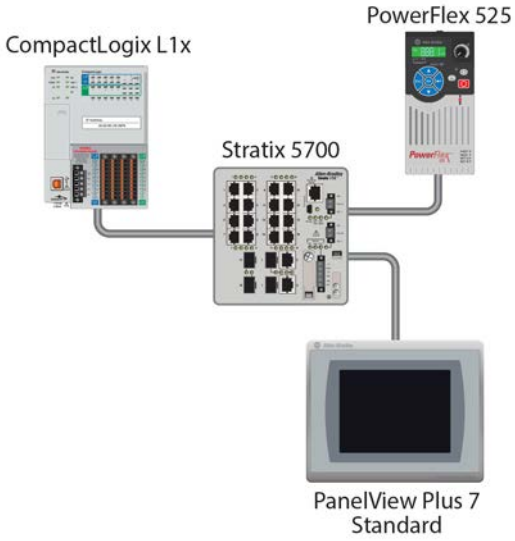
This scalable control system helps machine builders and their customers cost-effectively match their application needs and standardize on one control platform while receiving real-time information for smaller applications.

Typical Configurations

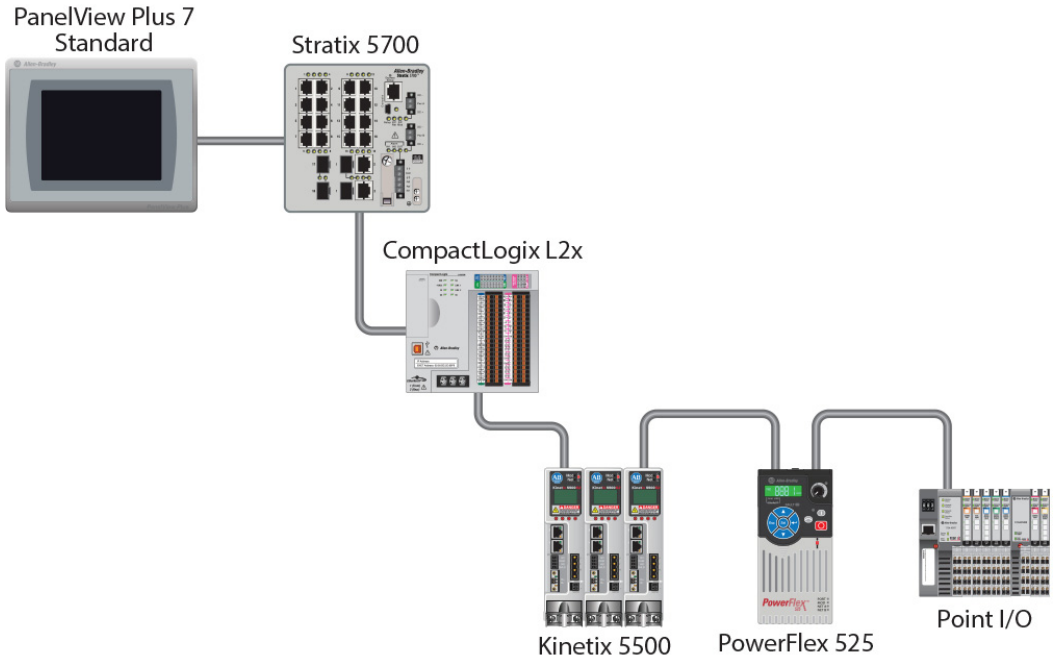
The following configurations are typically used in the midrange class:

- Star configuration
- Linear configuration
- Device Level Ring configuration

Star Configuration

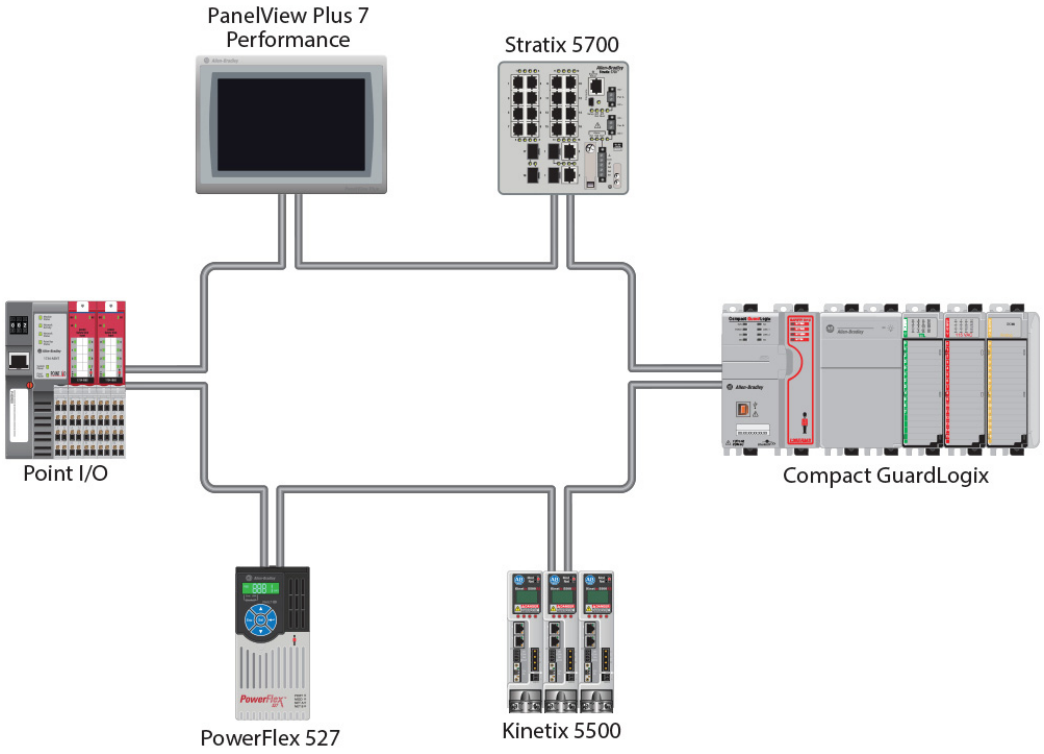


Linear Configuration



Device Level Ring Configuration

The PanelView Plus 7 standard terminal and the CompactLogix™ 5370 controller provide an integrated, Device Level Ring capable solution for mid-size applications. Typically, these applications are machine-level control applications that require smaller I/O quantities and benefit from EtherNet/IP communication capabilities.



Integrated Architecture Class

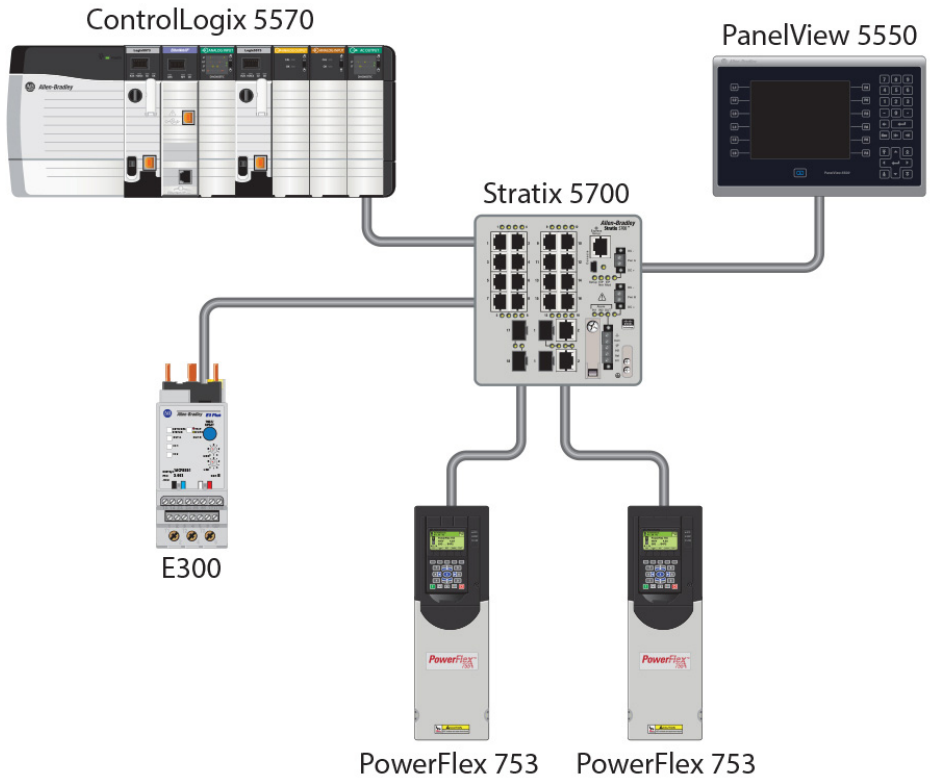
The Integrated Architecture™ system is unique in that it offers scalable, integrated safety, motion control, and visualization capabilities that are ideal for machine builders and end users who want one control and development environment, regardless of the application size or complexity. Large control systems integrate all control disciplines - process batch, discrete, drives, safety, and motion - into one connected and segmented, plant-wide infrastructure that uses a common design environment for all automation disciplines.

Typical Configurations

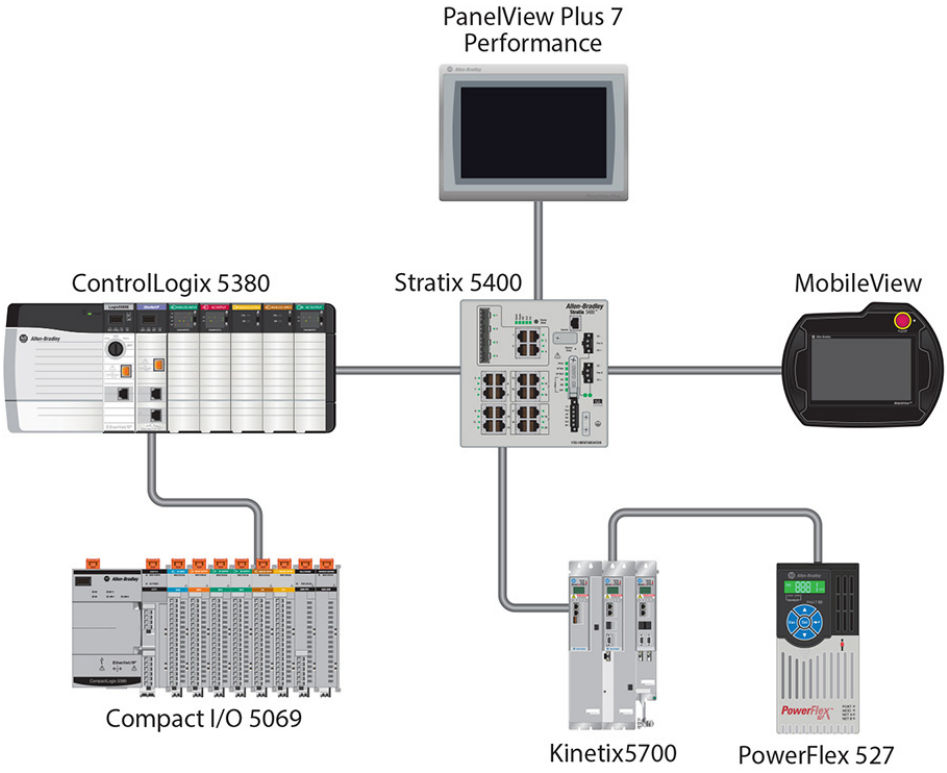
The following configurations are typically used in the integrated architecture class:

- Star configuration
- Linear configuration
- Device Level Ring configuration

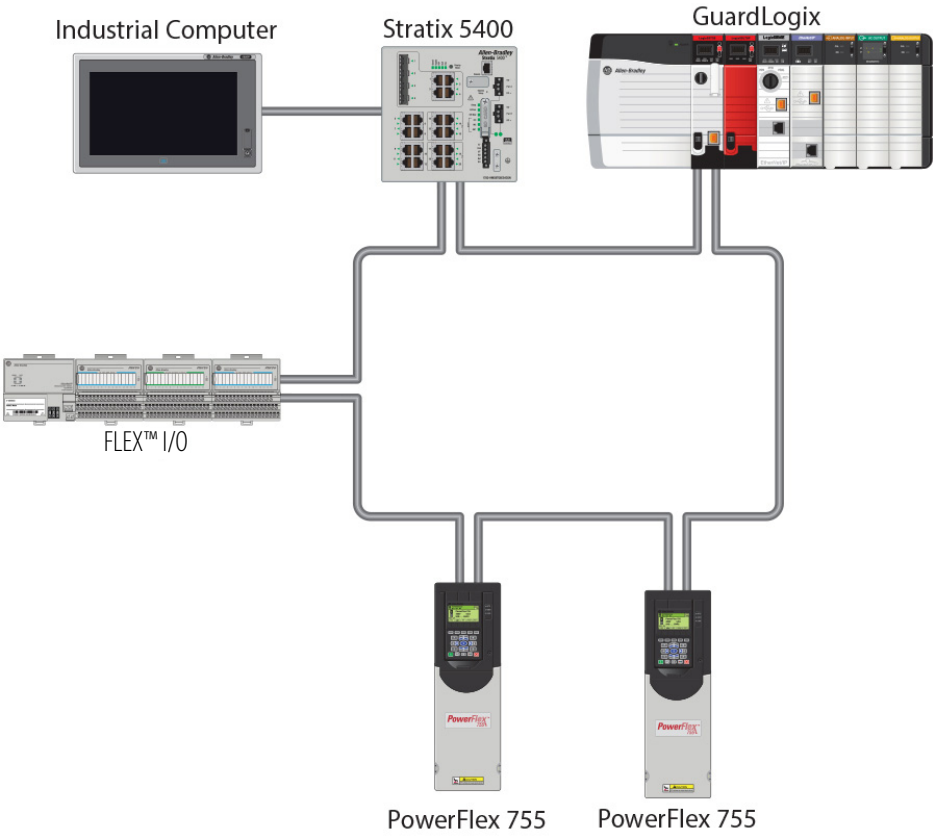
Star Configuration



Linear Configuration



Device Level Ring Configuration



To select a visualization system, choose from the following tables.

PanelView HMI Terminals

This table provides a quick glance at comparisons between the different HMI terminal platforms.

Industrial Computers

Rockwell Automation® industrial computers and monitors are built with high-grade components that are critical to the safety and success of applications in demanding industrial environments:

- Seamless integration with the full suite of Rockwell Software® solutions, including the Integrated Architecture® platform and FactoryTalk® View software
- Utilities for system backup and restore, hardware analysis, and troubleshooting
- Unit-level immediate exchange program to reduce downtime

If you need the processing power of an industrial computer with open-desktop and modern operating-system support, choose from the following options:

Integrated-Display Industrial Computers	Non-Display Computers	Industrial Monitors
Select models with and without displays for high performance applications.	Machine or rack-mount computers for applications where you do not need a display. The focus of these computers is on expandability.	Standard and Performance options for when you need a Class 1 Div 2 rated industrial monitor to enhance your system.

PanelView 5500 Terminals

PanelView™ 5500 terminals are operator interface terminals. They monitor and control devices that are attached to ControlLogix® 5570 and CompactLogix™ 5370 series controllers over an EtherNet/IP network. Animated graphic and text displays provide operators a view into the operating state of a machine or process. Operators interact with the control system by using the touch screen or keypad of the terminal.

Features include the following:

- Tightly integrated control and design environment allows for information sharing between the terminal and the Logix platforms
- Studio 5000® environment provides one point of access for both Studio 5000 View Designer® and Studio 5000 Logix Designer® applications
- Connection to one ControlLogix 5570 or CompactLogix 5370 series controllers running V27 firmware or later
- Ethernet communication that supports Device Level Ring (DLR), linear, and star network topologies
- Supports up to 50 displays in the application
- Supports up to 500 Logix-based alarms

Terminal Features

Features	Description
High memory capacity	512 MB RAM and 250 MB user storage
Power input	DC or AC
Communication ports	Two 10/100Base-T, Auto MDI/MDI-X, built-in DLR Ethernet port for controller communication.
USB ports	Two USB high-speed 2.0 host ports (type A) support removable flash drives for external storage
Software	Studio 5000 environment provides single portal to View Designer and Logix Designer applications
Preferred controller	ControlLogix 5570 and CompactLogix 5370 series controllers

For complete technical specifications, certifications, and environmental specifications on the PanelView 5500 terminals, refer to the PanelView 5500 Specifications Technical Data, publication 2715-TD001.

PanelView Plus 7 – Performance Terminals

PanelView™ Plus 7 performance terminals are operator interface terminals. They monitor and control devices attached to ControlLogix® and CompactLogix™ 5370 controllers on an EtherNet/IP network. Animated graphic and text displays provide operators a view into the operating state of a machine or process. Operators interact with the control system by using touch screen or keypad input.

Features include the following:

- FactoryTalk® View Machine Edition software provides a familiar environment for creating HMI applications
- Windows CE operating system with desktop access for configuration and third-party applications
- Connection to ControlLogix or CompactLogix 5370 controllers
- Ethernet communication that can support Device Level Ring (DLR), linear, or star network topologies
- Web browser, Microsoft file viewers, text editor, PDF viewer, remote desktop connection, and media player on the terminal desktop

Terminal Features

Features	Description
High memory capacity	512 MB RAM and 512 MB storage Approx. 80 MB nonvolatile storage for applications
Power input	DC or AC
Communication ports	Two 10/100Base-T, Auto MDI/MDI-X, built-in DLR Ethernet port for controller communication
USB ports	Two USB 2.0 high-speed host port (type A) support removable flash drives for storage One high-speed 1.0 device port (type B) supports future connection to host computer
Secure Digital (SD) card slot	One SD card slot
Operating system	All terminals run the Windows CE 6.0 operating system (OS) which provides OS functionality that meets the needs of most users: • FTP server • VNC client/server • PDF reader • Active X controls • Third-party device support • FactoryTalk® ViewPoint
Software	FactoryTalk® View Machine Edition Station (runtime) software, version 8.0 or later, is preloaded and activated on each terminal Single license support for FactoryTalk ViewPoint software, version 1.2 or later, gives remote users access to terminal displays via a standard web browser HMI applications are developed with FactoryTalk View Studio for Machine Edition software, which is purchased separately
Preferred controller	ControlLogix

For complete technical specifications, certifications, and environmental specifications on the PanelView Plus 7 Performance terminals, refer to the PanelView Plus 7 Performance Terminals Technical Data, publication 2711P-TD009.

PanelView Plus 7 – Standard Terminals

PanelView™ Plus 7 Standard terminals are operator interface devices. They monitor and control devices that are attached to ControlLogix® 5570 and CompactLogix™ 5370 controllers on an EtherNet/IP network. Animated graphic and text displays provide operators a view into the operating state of a machine or process. Operators interact with the control system by using touch screen input.

PanelView Plus 7 Standard terminals include these features:

- Terminal functionality permits connection to 1 controller, up to 25 screens, and up to 200 alarms.
- FactoryTalk® View Machine Edition software provides a familiar environment for creating HMI applications.
- Windows CE operating system with desktop access for configuration and third-party applications.
- Ethernet communication that supports linear, star, and ring network topologies.
- PDF viewer to access PDF files that are stored on the terminal.
- More screen options including 4-in., 6-in., 7-in., 9-in.,10-in., 12-in., and 15-in. terminals.
- Widescreen option on three sizes: 4-in., 9-in., and 12-in. terminals.
- Greater screen resolution.
- Terminals are available with an Allen-Bradley® label, or with no label for customers who want to put their own labeling on the terminal.
- Certifications including Class 1, Div 2 and ATEX zones 2 and 22.

PanelView Plus 6 – 700, 1000, 1250, and 1500 Terminals

This platform uses modular components with value-added options for flexible system configuration. These components are usable across the entire PanelView™ Plus 6 platform and install with minimal effort:

- Color display modules that range from 6.5 inches to 15 inches in size with either key, touch screen, or combination key/touch-screen input
- Windows CE logic modules providing desktop access
- Optional communication modules for network communication

Configured terminals with a display module and logic module can be ordered as one catalog number or as separate components for field installation. Refer to Modular Components on page 21.

A high-bright display for outdoor use, plus conformal-coated and marine-certified components, extend the ability of this platform to operate in environments with even more stringent and varying requirements.

The core component of this platform is the high-performance logic module that runs a closed or open Windows CE desktop environment with optional, extended features and file viewers. System integrators and OEMs can configure and deploy systems that allow or restrict desktop access.

Terminal Features

Features	Description
High memory capacity	512 MB nonvolatile memory and 512 MB RAM
Power input	AC or DC
Network interface	Optional DH+™, DH-485, or ControlNet communication module
Communication ports	Ethernet, RS-232 serial
USB ports	2 USB host ports for connecting a USB mouse, keyboard, printer, and USB drives that are hot swappable 1 USB device port for connecting a host personal computer
Secure Digital (SD) card slot	Hot-swappable card slot supports 1784-SD*x* SD cards for transferring files, upgrading firmware, or logging data
Operating system	All terminals run the Windows CE 6.0 operating system (OS) which provides OS functionality that meets the needs of most users: • FTP server • VNC client/server • PDF reader • Active X controls • Third-party device support • FactoryTalk ViewPoint Additional functionality is available by ordering terminals with optional, extended features: • Internet Explorer™ web browser • Remote desktop connection • Media player • Microsoft file viewers for PowerPoint, Excel, and Word • WordPad text editor
Software	FactoryTalk® View Machine Edition Station (runtime) software, version 6.0 or later, is preloaded and activated on each terminal Single license support for FactoryTalk ViewPoint software, version 1.2 or later, gives remote users access to terminal displays via a standard web browser HMI applications are developed with FactoryTalk View Studio for Machine Edition software, which is purchased separately
Preferred controller	ControlLogix or CompactLogix

For complete technical specifications, certifications, and environmental specifications on the PanelView Plus 6 terminals, refer to the PanelView Plus 6 Specifications Technical Data, publication 2711P-TD005.

(1) These PanelView Plus 6 terminals include Ethernet and RS-232 Communication ports, and two USB ports.

(2) This model includes conformal coating.

Modular Components

Display modules, logic modules, and communication modules can be ordered as separate components for field installation.

Display Modules

Model	Cat. No.	Input Type	Display	Marine Certified	Conformal Coated	Built-in Antiglare Overlay
700 Model	2711P-RDK7C	Keypad	7-in. color			
	2711P-RDK7CK				x	
	2711P-RDT7C	Touch				
	2711P-RDT7CK				x	
	2711P-RDT7CM			x		
	2711P-RDB7C	Keypad/Touch				
	2711P-RDB7CK				x	
	2711P-RDB7CM			x		
1000 Model	2711P-RDK10C	Keypad	10-in. color			
	2711P-RDT10C	Touch

	2711P-RDT15C	Touch				
	2711P-RDT15AG					x
	2711P-RDB15C	Keypad/Touch				

(1) This catalog number is a high-bright display module, indicated by the H at end of cat. no., which is designed for outdoor applications. The high-bright display module can be used only with DC-powered logic modules.

Logic Modules

Extended Features	Cat. No.	Power Input	Memory RAM/Nonvolatile	Communication	Marine Certified	Conformal Coated	Included Software
No	2711P-RP8A	AC	512 MB/512 MB	• Ethernet • RS-232 • Network interface for communication module	x		• Windows CE 6.0 operating system without extended features/file viewers • FactoryTalk View Machine Edition Station (runtime), version 6.0 or later • FactoryTalk ViewPoint software, version 1.2 or later
	2711P-RP8D	DC			x		
	2711P-RP8DK				x	x	
Yes	2711P-RP9A	AC	512 MB/512 MB	• Ethernet • RS-232 • Network interface communication module	x		• Windows CE 6.0 operating system with extended features/file viewers • FactoryTalk View Machine Edition Station (runtime), version 6.0 or later • FactoryTalk ViewPoint software, version 1.2 or later
	2711P-RP9D	DC			x		
	2711P-RP9DK				x	x	

Communication Modules

Cat. No.	Communication				Conformal Coated	Marine Certified
	Ethernet	DH+	DH-485	ControlNet(2)		
2711P-RN6		x	x			
2711P-RN6K		x	x		x	
2711P-RN15S				x		x
2711P-RN15SK				x	x	
2711P-RN20(1)	x					

(1) All terminals have an Ethernet port. The cat. no. 2711P-RN20 module provides an additional Ethernet port.
(2) Scheduled and unscheduled communication.

For information about accessories that are available for these terminals, see page 34.

PanelView Plus 6 – 400 and 600 Terminals

The smaller PanelView™ Plus 6 - 400 and 600 terminals combine the display, logic, memory, and power into one base unit:

- The 400 model has a 3.5-in. color graphic display with keypad or combination key and touch input, or a grayscale display with keypad input.
- The 600 model has a 5.7-in. color or grayscale graphic display with keypad, touch screen, or combination keypad/touch-screen input.

This new generation of terminals runs the Windows CE 6.0 operating system similar to the PanelView Plus 6 - 700...1500 terminals. The terminals run HMI applications but also allow access to the desktop. For users with more complex application requirements, the 600 color terminals can be ordered with optional, extended features and file viewers.

Terminal Features

Features	Description
High memory capacity	512 MB nonvolatile memory and 256 MB RAM
Power input	AC or DC
Communication ports	Units are available with one of these communication options: • RS-232 • Ethernet and RS-232 Separate communication modules are not supported.
USB ports	• 1 USB host ports for connecting a USB mouse, keyboard, printer, and USB drives that are hot swappable • 1 USB device port for connecting a host personal computer
Secure Digital (SD) card slot	Hot-swappable card slot supports 1784-SD*x* SD cards for transferring files, upgrading firmware, or logging data
Operating system	All terminals run the Windows CE 6.0 operating system (OS) which provides OS functionality that meets the needs of most users: • FTP server • VNC client/server • PDF reader • FactoryTalk Viewpoint • Active X controls • Third-party device support Additional functionality is available for the 600 terminals by ordering terminals with these optional, extended features: • Internet Explorer™ web browser • Media player • Microsoft file viewers for PowerPoint, Excel, and Word • WordPad text editor
Software	• FactoryTalk® View Machine Edition Station (runtime) software, version 6.10 or later, is preloaded and activated on each terminal • HMI applications are developed with FactoryTalk View Studio for Machine Edition software, which is purchased separately
Reset and default switches	Provide easy access to diagnostic and repair operations
Preferred controller	CompactLogix™ or ControlLogix®

For complete technical specifications, certifications, and environmental specifications on the PanelView Plus 6 terminals, refer to the PanelView Plus 6 Specifications Technical Data, publication 2711P-TD005.

(1) These PanelView™ Plus 6 terminals include one USB port.

For information about accessories available for these terminals, see page 34.

PanelView Plus 6 – Compact Terminals

The next generation PanelView™ Plus 6 Compact 400, 600, and 1000 terminals offer just the right hardware and software functionality to meet the needs of mid-size applications. Any application that is created for a compact terminal is also compatible with other PanelView Plus 6 terminals. Key features include the following:

- 25 displays and 200 alarm messages supported in the FactoryTalk® View Compact Machine Edition application
- Fixed hardware configurations without the addition or replacement of modular components

Terminal Features

Features	Description
High memory capacity	512 MB nonvolatile memory and 256 MB RAM(1)
Power input	DC
Communication ports	RS-232 serial and Ethernet
USB ports	1 USB device port for connecting a host personal computer
Secure Digital (SD) card slot	Hot-swappable card slot supports 1784-SDx SD cards for transferring files, upgrading firmware, or logging data
Operating system	All terminals run the Windows CE 6.0 operating system (OS) providing OS functionality needed for most users needs: • FTP server • VNC client/server • PDF reader • FactoryTalk Viewpoint • Active X controls • Third-party device support
Software	• FactoryTalk® View Machine Edition Station (runtime) software, version 6.10 or later, is preloaded and activated on each terminal • Single license support for FactoryTalk ViewPoint software, version 1.2 or later, gives remote users access to a terminal display via standard web browser • HMI applications are developed with FactoryTalk View Studio for Machine Edition software, which is purchased separately • Connection to single controller by using either RSLinx® Enterprise software, version 5.51 or later, or KEPServer software
Preferred controller	CompactLogix™

(1) The 10.4 in. terminal comes with 512 MB nonvolatile memory and 512 MB RAM.

For complete technical specifications, certifications, and environmental specifications on the PanelView Plus 6 terminals, refer to the PanelView Plus 6 Specifications Technical Data, publication 2711P-TD005.

Terminal Selection

Model	Input Type			Display

	—	2711PC-T6C20D8	—		Color
1000	—	2711PC-T10C4D8	—	10-in.	

For information about accessories that are available for these terminals, see page 37.

Notes:

MobileView Tethered Operator Terminals

The MobileView™ 2711T family of human machine interface (HMI) devices have a rugged design with Microsoft® Windows® 7 Embedded Standard. The MobileView 2711T terminal features include a 3-position enable switch, touch and function keys, and stop push buttons. These features allow operator access to the safety system of the machine and the general interface to its control system.

The MobileView 2711T terminal is ideal for various applications, including:

- Operator panel for machines and plants
- Teach and programming panel for robots
- Test, maintenance, and startup

The MobileView 2711T terminal easily adapts to specific applications by using configurable operating and control elements. A cable and junction box are required for the operation of a MobileView terminal.

Terminal Features

Features	Description
Display size	10 in.
Enabling Switch	Yes
High memory capacity	4 GB RAM/32 GB SSD
Power input	DC
Communication ports	10/100 Ethernet
USB ports	One USB host port
Secure Digital (SD) card slot	Internal SD card
Operating system	All terminals run the Windows® 7 Embedded Standard operating system (OS).
Software	FactoryTalk® View Studio for Machine Edition
Preferred controller	ControlLogix®

For complete technical specifications, certifications, and environmental specifications on the MobileView tethered operator terminals, refer to the MobileView Tethered Operator Terminal Technical Data, publication 2711T-TD001.

Terminal Selection

Model	Cat. No.	Input Type	Stop Button	Additional Options
2711T	2711T-T10R1N1	Touch	Red E-stop	Neither key switch nor momentary button
	2711T-B10R1K1	Touch and function keys		Key switch
	2711T-B10R1M1			Momentary button
	2711T-T10G1N1	Touch	Gray Stop	Neither key switch nor momentary button

For information about accessories that are available for these terminals, see page 38.

Notes:

PanelView 800 Terminals

When you need an essential component but with a reduced cost, look to the PanelView™ 800 family of operator interface devices. The PanelView 800 platform features a full line of 4-inch, 7-inch, and 10-inch displays (PanelView Component terminals maintain their 2-inch and 3-inch displays). Preferred integration with Allen-Bradley® MicroLogix™, Micro800®, CompactLogix™ 5370 L1, and SLC™ 500 families of logic controllers offers a control and visualization solution for various applications. The PanelView 800 platform includes the Connected Components Workbench™ software as the common programming software.

Other key features include the ability to do the following:

- Secure information on screens with user name and password protection.
- Display information in languages including Chinese, Portuguese, French, Italian, German, Spanish, and Korean.
- Alert operators with alarm messages that include embedded variables and an alarm status/history.
- Upload and download groups of data or parameter settings within the recipe feature.
- Use Connected Components Workbench™ software, the integrated design and configuration software that offers HMI programming and controller programming within the same common platform.

Terminal Features

Features	Description
High memory capacity	128 MB RAM and 128 MB storage (PV800 4-in.) 256 MB RAM and 256 MB storage (PV800 7-in. and PV800 10-in.)
Power input	24V DC
Communication ports	Serial(1) and Ethernet
USB ports	One USB high-speed 2.0 host port
Software	Connected Components Workbench with DesignStation
Preferred controller	MicroLogix, Micro800, and CompactLogix 5370 L1 controllers

(1) Serial refers to RS-232 (DF1), RS-232 (DH-485), RS-485 communication.

For complete technical specifications, certifications, and environmental specifications on the PanelView 800 terminals, refer to the PanelView 800 Terminals Technical Data, publication 2711R-TD001.

For complete technical specifications, certifications, and environmental specifications on the PanelView™ Component terminals, refer to the PanelView Component Specifications Technical Data, publication 2711C-TD001.

Terminal Selection

Model	Cat. No.	Display		Input Type
		Size	Type	
PanelView 800	2711R-T4T	4 in.	Color transmissive TFT	Analog touch and function keys
	2711R-T7T	7 in.		Analog touch
	2711R-T10T	10 in.		
PanelView Component C200	2711C-F2M	2-in.	Monochrome transflective STN	Four function keys
	2711C-K2M			Ten function keys and numeric keypad
PanelView Component C300	2711C-T3M	3-in.		Touch screen
	2711C-K3M			Ten function keys and numeric keypad

For information about accessories that are available for these terminals, see page 39.

The tables in this chapter list accessories and communication cables available for PanelView™ terminals.

PanelView 5500 Accessories

The following tables list accessories for PanelView 5500 terminals.

Protective Overlays

Cat. No.	PanelView 5500 Terminal Model	Input	Display	Quantity
2711P-RGT7SP	7 in.	Touch	—	3
2711P-RGB7P		Touch with keypad

2711P-RGT10SP	10 in.		—	
2711P-RGB10P		Touch with keypad		
2711P-RGT12SP	12 in.	Touch	Wide	
2711P-RGT15SP	15 in.		—	
2711P-RGB15P		Touch with keypad		
2711P-RGT19P	19 in.	Touch		

Power Supplies and Power Terminal Blocks

Cat. No.	Description	Quantity
1606-XLP95E	DIN-rail power supply, 24…28V DC output voltage, 95 W	1
1606-XLP100E	DIN-rail power supply, 24…28V DC output voltage, 100 W	
2711P-RSACDIN	DIN-rail power supply, AC-to-DC, 85…265V AC, 47…63 Hz	
2711P-RTBAP	3-pin AC power terminal block	10
2711P-RTBDSP	3-pin DC power terminal block	

Mounting Hardware

Cat. No.	Description	Quantity
2711P-RMCP	Mounting levers	16

Battery Replacement

Cat. No.	Description	Quantity
2711P-RY2032	Lithium coin cell battery, CR2032 equivalent	1

PanelView Plus 7 Accessories – Performance Terminals

The following tables list accessories for PanelView Plus 7 Performance terminals.

Protective Overlays

Cat. No.	PanelView Plus 7 Terminal Model	Input	Quantity
2711P-RGT7SP	7 in.	Touch	3
2711P-RGB7P		Touch with keypad	
2711P-RGT9SP	9 in. (wide)	Touch	
2711P-RGT10SP	10 in.		
2711P-RGB10P		Touch with keypad	
2711P-RGT12SP	12 in. (wide)	Touch	
2711P-RGT15SP	15 in.		
2711P-RGB15P		Touch with keypad	
2711P-RGT19P	19 in.	Touch	

Mounting Hardware

Cat. No.	Description	Quantity
2711P-RMCP[1]	Mounting levers	16

(1) These levers are also used with the PanelView 5500 terminals.

Battery Replacement

Cat. No.	Description	Quantity
2711P-RY2032	Lithium coin cell battery, CR2032 equivalent	1

Secure Digital (SD) Cards

Cat. No.	Description	Quantity
1784-SD1	1 GB SD card	1
1784-SD2	2 GB SD card	

Power Supplies

Cat. No.	Description	Quantity
1606-XLP95E	DIN-rail power supply, 24…28V DC output voltage, 95 W	1
1606-XLP100E	DIN-rail power supply, 24…28V DC output voltage, 100 W	
2711P-RSACDIN	DIN-rail power supply, AC-to-DC, 85…265V AC, 47…63 Hz	

Terminal Blocks

Cat. No.	Description	Quantity
2711P-RTBAP	3-pin AC power terminal block	10
2711P-RTBDSP	3-pin DC power terminal block	

PanelView Plus 7 Accessories – Standard Terminals

The following tables list accessories for PanelView Plus 7 standard 4, 6, 7, 9, 10. 12, and 15-inch terminals. Display modules, logic modules, and communication modules can be ordered as separate components for field installation.

Protective Overlays

Cat. No.	PanelView Plus 7 Terminal Model	Input	Quantity
2711P-RGT4S	4 in. (Wide)	Touch	3
2711P-RGT6S	5 in.		
2711P-RGB7SP	6 in.		
2711P-RGT9SP	9 in. (Wide)		
2711P-RGT10SP	10 in.		
2711P-RGT12SP	12 in. (Wide)		
2711P-RGT15SP	15 in.		

Mounting Hardware

Cat. No.	Description	Quantity
2711P-RMCS	Mounting levers	12

Battery Replacement

Cat. No.	Description	Quantity
2711P-RY2032	Replacement battery CR2032 coin-cell equivalent battery	1

Battery Cover

Cat. No.	Description	Quantity
2711P-RYKS	Replacement cover for the battery compartment.	3

SD Cover

Cat. No.	Description	Quantity
2711P-RCKS	Replacement cover for the SD compartment.	3

Terminal Blocks

Cat. No.	Description	Quantity
2711P-RTBAP	DC power terminal block	10

PanelView Plus 6 Accessories

The following tables list accessories for PanelView Plus 6 – 400, 600, 700, 1000, 1250, and 1500 terminals.

Programming Cables

Cat. No.	Terminal Model	Description	Length
6189V-USBCBL2	400, 600	Programming cable that connects the USB device port of the terminal to a USB host port of a computer	1.8 m (6 ft)
2711C-CBL-UU02	700, 1000, 1250, 1500		2 m (6.5 ft)

Function Key Legend Inserts

Cat. No.	Terminal Model(1)	Description
2711P-RFK6	600 keypad and keypad/touch	Blank legend inserts and software
2711P-RFK7	700 keypad	
2711P-RFK10	1000 keypad	
2711P-RFK12	1250 keypad	
2711P-RFK15	1500 keypad	

(1) Applies to keypad and keypad/touch-screen terminals.

Secure Digital (SD) Cards

Cat. No.	Terminal Model	Description
1784-SD1	400, 600, 700, 1000, 1250, 1500	1 GB Secure Digital (SD) card
1784-SD2		2 GB Secure Digital (SD) card

Antiglare Overlays

Cat. No.(1)	Terminal Model	Type
2711P-RGB4	400 grayscale or color	Keypad, Key/Touch
2711P-RGK6	600 grayscale or color	
2711P-RGT6		Touch
2711P-RGK7	700	Keypad, Key/Touch
2711P-RGT7		Touch
2711P-RGK10	1000	Keypad, Key/Touch
2711P-RGT10		Touch
2711P-RGK12	1250	Keypad, Key/Touch
2711P-RGT12		Touch
2711P-RGK15	1500	Keypad, Key/Touch
2711P-RGT15		Touch

(1) Three overlays are shipped with each catalog number.

Mounting Hardware

Cat. No.	Terminal Model	Description	Quantity
2711P-RTFC	400, 600	Mounting levers	8
2711P-RTMC	700, 1000, 1250, 1500	Mounting clips	

Battery Replacement

Cat. No.	Terminal Model	Description	Quantity
2711P-RY2032	400, 600, 700, 1000, 1250, 1500	Replacement battery CR2032 coin-cell equivalent battery	1

Power Supply and Power Terminal Blocks

Cat. No.	Terminal Model	Description	Quantity
2711P-RSACDIN	400, 600, 700, 1000, 1250, 1500	DIN-rail power supply, AC-to-DC, 85…265V AC, 47…63 Hz	1
2711P-6RSA	400, 600	AC power module converts a DC-powered terminal to AC power	
2711P-RVAC		AC power terminal block	10
2711P-TBDC		DC power terminal block	
2711P-RTBAC3	700, 1000, 1250, 1500	AC power terminal block	
2711P-RTBDC2		2-pin DC power terminal block	

Solar Visor

Cat. No.	Terminal Model	Description
2711P-RVT12	700, 1000, 1250, 1500	Solar visor for 1250 high-bright display module, cat. no. 2711P-RDT12H

Backlight Replacements

Cat. No.	Terminal Model	Series	Number of Backlights
2711P-RL7C	700	A and B	1
2711P-RL7C2		C and D	
2711P-RL10C	1000	A	
2711P-RL10C2		B and C	
2711P-RL12C	1250	A and B	2
2711P-RL12C2		C	1
2711P-RL15C	1500	B	2

Bezel Replacements

Cat. No.	Terminal Model	Type
2711P-RBK7	700	Keypad
2711P-RBT7		Touch
2711P-RBB7		Key/Touch
2711P-RBK10	1000	Keypad
2711P-RBT10		Touch
2711P-RBB10		Key/Touch
2711P-RBK12	1250	Keypad
2711P-RBT12		Touch
2711P-RBT12H(1)		
2711P-RBB12		Key/Touch
2711P-RBK15	1500	Keypad
2711P-RBT15		Touch
2711P-RBB15		Key/Touch

(1) Applies to the cat. no. 2711P-RDT12H 1250 high-bright display module.

PlusView Plus 6 Accessories – Compact Terminals

The tables list accessories for PanelView Plus 6 Compact terminals.

Secure Digital (SD) Cards

Cat. No.	Description
1784-SD1	1 GB SD card
1784-SD2	2 GB SD card

Antiglare Overlays

Cat. No.(1)	Terminal Model	Input Type		
		Keypad	Touch	Key/Touch
2711P-RGB4	400 grayscale or color	x		x
2711P-RGT6	600 grayscale or color		x	
2711P-RGT10	1000 color		x	

(1) Three overlays are shipped with each catalog number.

Mounting Hardware

Cat. No.	Description	Quantity
2711P-RTFC	Mounting levers (600 only)	8
2711P-RTMC	Mounting levers for (1000 only)	

Power Supply and Power Terminal Blocks

Cat. No.	Description	Quantity
2711P-RSACDIN	DIN-rail power supply, AC-to-DC, 85. . .265V AC, 47. . .63 Hz	1
2711P-6RSA	AC power module converts a DC-powered terminal to AC power (400 and 600 only)	
2711P-TBDC	DC power terminal block (400 and 600 only)	10
2711P-RTBDC2	2-pin DC power terminal block (1000 only)	

Cables

Cat. No.	Description	Length
6189V-USBCBL2	Programming cable that connects the USB device port of the terminal to a USB host port of a computer (400 and 600 only)	1.8 m (6 ft)
2711C-CBL-UU02	Programming cable that connects the USB device port of the terminal to a USB host port of a computer (1000 only)	2 m (6.5 ft)

Battery Replacement

Cat. No.	Description	Quantity
2711P-RY2032	Replacement battery CR2032 coin-cell equivalent battery	1

MobileView™ Tethered Operator Terminal Accessories

The tables list accessories for the 2711T tethered operator terminals.

Cables

Cat. No.	Description
2711T-5MCABLE	Connection cable (5 m/16.4 ft) to connect the terminal to the junction box.
2711T-10MCABLE	Connection cable (10 m/32.8 ft) to connect the terminal to the junction box.
2711T-15MCABLE	Connection cable (15 m/49.2 ft) to connect the terminal to the junction box.

Junction Box

Cat. No.	Description
2711T-JBIP20DC	IP20 junction box that is 24V DC powered and includes a junction box cap.

Mounting Bracket

Cat. No.	Description
2711T-BRACKET	Mounting bracket for stationary operation or to store the terminal.

Bridge Connector

Cat. No.	Description
2711T-JUMP	Bridge connector that serves to bypass E-stop contactors so a machine or automation system can operate without a MobileView tethered operator terminal.

PanelView 800 Terminal Accessories

The tables list accessories for PanelView 800 and PanelView Component terminals.

Antiglare Overlays

Cat. No.[1]	PanelView Component Model	Input Type		
		Function Key	Numeric Keypad	Touch
2711C-RG2F	C200	x		
	C300			x
2711C-RG2K	C200		x	
	C300		x	
2711C-RG6T	C600			x
2711C-RG10T	C1000			x

(1) Three overlays are shipped with each catalog number.

Power Terminal Blocks

Cat. No.	Description	Quantity
2711C-RJ422	RS-422/RS-485 connector with resistor[1]	10
2711-TBDC	DC power terminal block	

(1) This power terminal block is also used with PanelView 800 terminals.

Power Supply

Cat. No.	Description	Quantity
2711P-RSACDIN	DIN-rail mount AC-to-DC power supply, 85...265V AC, 47...63 Hz[1]	1

(1) This power supply is also used with PanelView 800 terminals.

Adapter Plate Kit

Cat. No.	Description	Quantity
2711R-APK7	PanelView 800 Adapter Plate Kit for 7-Inch Terminal	1
2711R-APK10	PanelView 800 Adapter Plate Kit for 10-Inch Terminal	

PanelView Terminal Communication Cables

The following tables list communication cables available for the PanelView family of terminals.

PanelView Plus 7 Terminals

The following tables list runtime communication cables for PanelView Plus 7 Standard (400W, 600, 700, 900W, 1000, 1200W, 1500) and PanelView Plus 7 Performance (700, 900W, 1000, 1200W, 1500, and 1900) terminals.

All PanelView Plus 7 terminals use a standard Ethernet 1585J-M type or 2711P-CBL-EX04 (4m/14 ft) cable for application transfers between a computer and the terminal and between the terminal and the Ethernet connection of the controller.

Communication Cables: PanelView Plus 7 Terminals to PLC-5® Controllers

	PLC-5®E
PanelView Plus 7 Standard (400W, 600, 700, 900W, 1000, 1200W, 1500)	Port: CH2 Ethernet RJ45 Protocol: EtherNet/IP
PanelView Plus 7 Performance (700, 900W, 1000, 1200W, 1500, and 1900)	1585J-M type cable or 2711P-CBL-EX04 (4 m/14 ft)

Communication Cables: PanelView Plus 7 Terminals to SLC Controllers

	SLC™ 5/05
PanelView Plus 7 Standard (400W, 600, 700, 900W, 1000, 1200W, 1500))	Port: CH1 - Ethernet - RJ45 Protocol: EtherNet/IP
PanelView Plus 7 Performance (700, 900W, 1000, 1200W, 1500, and 1900)	1585J-M type cable or 2711P-CBL-EX04 (4 m/14 ft)

Communication Cables: PanelView Plus 7 Terminals to MicroLogix Controllers

	MicroLogix™ 1100, 1400
PanelView Plus 7 Standard (400W, 600, 700, 900W, 1000, 1200W, 1500)	Port: Ethernet - RJ45 Protocol: EtherNet/IP
PanelView Plus 7 Performance (700, 900W, 1000, 1200W, 1500, and 1900)	1585J-M type cable or 2711P-CBL-EX04 (4 m/14 ft)

Communication Cables: PanelView Plus 7 Terminals to CompactLogix Controllers

	CompactLogix™ L35E, L23E, L32E, 1768-ENBT, and 5370 L1, L2, L3
PanelView Plus 7 Standard (400W, 600, 700, 900W, 1000, 1200W, 1500)	Port: Ethernet - RJ45 Protocol: EtherNet/IP
PanelView Plus 7 Performance (700, 900W, 1000, 1200W, 1500, and 1900)	1585J-M type cable or 2711P-CBL-EX04 (4 m/14 ft)

Communication Cables: PanelView Plus 7 Terminals to ControlLogix Controllers

	ControlLogix®
PanelView Plus 7 Standard (400W, 600, 700, 900W, 1000, 1200W, 1500)	Communication Module: 1756-ENBT, 1756-ENxT Protocol: EtherNet/IP
PanelView Plus 7 Performance (700, 900W, 1000, 1200W, 1500, and 1900)	1585J-M type cable or 2711P-CBL-EX04 (4 m/14 ft)

PanelView Plus 6 Terminals

The following tables list runtime communication cables for PanelView Plus 6 (400, 600, 700, 1000, 1250, 1500) terminals. PanelView Plus 6 Compact terminals use the same cables as PanelView Plus 6 (400 and 600) terminals.

All PanelView Plus 6 terminals use a standard Ethernet 1585J-M type or 2711P-CBL-EX04 (4m/14 ft) cable for application transfers between a computer and the terminal.

Communication Cables: PanelView Plus 6 Terminals to PLC-5 Controllers

	PLC-5, PLC-5C, PLC-5E	PLC-5, PLC-5C, PLC-5E	PLC-5E	PLC-5C
	Port: CH0 - 25-pin RS-232 Protocol: DF1	Port: CH1/CH2 DH+™ Protocol: DH+™	Port: CH2 Ethernet RJ45 Protocol: EtherNet/IP	Port: ControlNet Port Protocol: ControlNet
PanelView Plus 6 Compact 400, 600, 1000	2711-NC13 (5 m/16 ft) or 2711-NC14 (10 m/32 ft) cable (Requires DB9 to DB25 adapter)	—	1585J-M type cable or 2711P-CBL-EX04 (4 m/14 ft)	—
PanelView Plus 6 400, 600		—		—
PanelView Plus 6 700, 1000, 1250, 1500		Requires 2711P-RN6 or 2711P-RN6K module, with shielded twinaxial cable (1770-CD)		Requires 2711P-RN15S or 2711P-RN15SK module, and 1786 ControlNet media

Communication Cables: PanelView Plus 6 Terminals to SLC Controllers

	SLC 5/01, 5/02, 5/03	SLC 5/03, 5/04, 5/05	SLC 5/04	SLC 5/05

(1) Use the serial port on the PanelView Plus 6 terminal with an AIC+ module for a DH-485 network solution.

PanelView 800 and PanelView Component Terminals

This section lists the cables that can be used to connect PanelView 800 and PanelView Component terminals to various controllers.

Cables for PanelView 800 and PanelView Component Terminals

Cat. No.	Description	For Use With
2711C-CBL-UU02	USB-A host to USB-B device cable, 2 m (6.5 ft)	C200, C300
2711P-CBL-EX04	Ethernet crossover CAT5 cable, 4.3 m (14 ft)	PanelView 800: 4-in, 7-in., and 10-in.
1747-CP3	Serial 9-pin D-shell to 9-pin D-shell null modem cable, 3 m (10 ft)	C200, C300 PanelView 800: 4-in, 7-in., and 10-in.
1761-CBL-PM02	Serial 9-pin D-shell to 8-pin mini DIN cable, 2 m (6.5 ft)	
2711C-CBL-AB03	RS-485 5-pin to RJ45 cable	
1763-NC01 series A	8-pin Mini DIN to 6-pin RS-485 terminal block	PanelView 800: 4-in, 7-in., and 10-in.

Communication Cables: PanelView 800 and PanelView Component Terminals to MicroLogix Controllers(1)

Protocol	Port	MicroLogix (8-pin Mini DIN) 1000, 1100, 1400, 1200LSP, 1500LSP (CH0)	MicroLogix (9-pin D-shell) 1500LRP (CH1)	MicroLogix 1100/1400 RS-485 (1763-NC01)	MicroLogix 1100, 1400 Ethernet
DF1	RS-232	1761-CBL-PM002	1747-CP3	—	—
DH-485				Use AIC+ module (1761-NET-AIC) connect to port 3	
	RS-485(2)	—	—	Belden 3106A or #9842 or equivalent	
Modbus	RS-232	1761-CBL-PM002	1747-CP3	Use AIC+ module (1761-NET-AIC) connect to port 3	
Ethernet (MicroLogix/ENI)2	Ethernet	—	—	—	CAT5 Ethernet

(1) The communication cables that are listed in this table are also used to connect PanelView 800 terminals to MicroLogix controllers.

(2) RS-485 is isolated and is recommended for connecting to only one device with an isolated port.

Communication Cables: PanelView 800 Terminals to Micro800 Controllers

Protocol	PanelView 800 Port	Micro820	Micro830	Micro850	Micro800 Plug-in Module (2080-SERIALISOL)

Serial (AB CIP)	RS-232	—(2)	1761-CBL-PM02	1761-CBL-PM02	—(2)

(1) RS-485 is isolated and is recommended for connecting to only one device with an isolated port.

(2) This controller includes a terminal block and requires wiring.

(3) This connectivity is not available for this controller.

Communication Cables: PanelView 800 Terminals to CompactLogix 5370 L1 Controllers

Protocol (CIP)	PanelView 800 Port	CompactLogix 5370 L1
Ethernet (CompactLogix)	2711P-CBL-EX04 (CAT5 Ethernet)	2711P-CBL-EX04 (CAT5 Ethernet)

Integrated Display Computers

When you require a view into your operations, Rockwell Automation® integrated display computers serve as the foundation for visualization control of processes and machinery by using information displays to repair, maintain, or start a process. Industrially rated components are selected to ensure continuous operation in the most demanding environments. Fanless designs are available for mission-critical applications. Integrated display computers provide seamless integration with the full suite of Rockwell Software® solutions, including the Integrated Architecture® platform and FactoryTalk® View software.

Performance Models (Series F)

Performance models are equipped with features designed to meet the most demanding integrated display computer needs:

- MLC or SLC solid-state drives with both AC and DC power input options
- 12-, 15-, 17-, or 19-inch display options
- Stainless steel NEMA 4X options
- Non-display options are available
- Lockable front-accessible USB 3.0 port
- Core i3 processor and expandable memory up to 16 GB
- Expansion options through a PCIe slot and an accessory kit for adding PCI or additional PCIe
- CompactFlash Type II slot with cover
- Rated to 55 °C (131 °F) for 12-, 15-, and 17-inch displays, and 50 °C (122 °F) for 19-inch displays
- Flush panel design minimizes debris buildup
- Single-touch resistive touch screens
- Front user interface button

Advanced Models (Series F)

Advanced models offer many of the same features as the Performance models, but the Advanced models include greater computing capacity:

- MLC or SLC solid-state drives with both AC and DC power input options
- 15-, 17-, or 19-inch display options, including 15-inch and 19-inch wide screen versions
- Core i7 processor and expandable memory up to 16 GB
- CompactFlash Type II slot with cover
- Expansion options through a PCIe slot and an accessory kit for adding PCI or additional PCIe
- Rated to 0…50 °C (32…122 °F) for 15-inch and 19-inch widescreen models and 19-inch non-widescreen models
- Rated 0…55 °C (32…131 °F) for 15-inch and 17-inch non-widescreen models
- Multi-touch capacitive touch screens
- Front user interface button
- RAID server model available

Terminal Features

Features	Description	
	Performance	**Advanced**
Processor	Intel i3-4102E; two cores; 1.6 GHz	Intel i7-4700EQ; four cores; 2.4 GHz
RAM	4 GB (2x 2 GB)(1)	8 GB (2 x 4 GB)(1)
Storage	Solid State - 1x 32 GB SLC, 2.5 in. SATA SSD Solid State - 1x 256 GB MLC, 2.5 in. SATA SSD	Solid State - 1x 32 GB SLC, 2.5 in. SATA SSD Solid State - 1x 256 GB MLC, 2.5 in. SATA SSD RAID - 2x 256 GB, 2.5 in. SATA SSD
Optical Storage	None supplied, but can be added via the 6189V-ODD kit	1 DVD-RW/CD-RW
Expansion Slots	1 PCI Express x8 (upgradable to 1 PCI, 2PCI, 2 PCIe x4, or 1 PCIe x4+ 1 PCI with Separate PCI riser kits)	1 PCI Express x8 (upgradable to 1 PCI, 2PCI, 2 PCIe x4, or 1 PCIe x4+ 1 PCI with Separate PCI riser kits)
Power	AC or DC	
Operating System	Windows 7 SP1 (64-bit) or	
	Windows Embedded Standard 7	Windows Server 2008 R2 SP1

(1) Can be upgraded to 16 GB RAM.

For complete technical specifications, certifications, and environmental specifications on the industrial computers and monitors, refer to the Industrial Computers and Monitors Specifications Technical Data, publication IC-TD001.

Non-display Computers

750R Model 1450R Model

6177R non-display computers take advantage of the Intel second-generation core processors to provide powerful, highly-reliable platforms suited for industrial environments. These computers are available in rugged machine-mount (750R) and rack-mount (1450R) form factors and offer powerful remote management, onboard backup/restore, and integrated diagnostic capabilities. Numerous expansion slots extend the versatility of these computers.

Terminal Features

Features	Description	
	750R Model	**1450R Model**
Processor	Intel Core i3-2120 3.3 GHz Or Intel Core i5-2400 3.1 GHz	
RAM	4 GB 32 GB max Or 8 GB 32 GB max	
Optical Storage	DVD-RW	
Expansion Slots	• 1 PCI • 1 PCI Express x16 • 1 PCI Express x4 • 1 PCI Express x1	• 4 PCI • 1 PCI Express x16 • 1 PCI Express x4 • 1 PCI Express x 1
Power	AC	
Operating System	No Operating System Windows XP Professional SP3 Windows 7 Professional (64 bit) SP1 Windows Server 2008 R2 (64 bit) SP1 Windows 8.1 Industry Pro (64 bit) Windows Server 2012 Standard R2 (64 bit)	

For complete technical specifications, certifications, and environmental specifications on the industrial computers and monitors, refer to the Industrial Computers and Monitors Specifications Technical Data, publication IC-TD001.

	6177R-RMS12		Server	Windows Server 2012 Standard R2 (64 bit)			(2) 500 GB[1]

(1) Enabled for RAID 1 operation.

For information about accessories that are available for these terminals, see page 56.

Industrial Monitors

Industrial monitors deliver the latest in LCD technology for rugged industrial environments. Combine these monitors with any of the Rockwell Automation® non-display computers to create a powerful visualization, maintenance, control, or information computing solution:

- The performance monitors are ideal for special purpose environments such as UL Class I Division II, and food and beverage areas, providing excellent protection against heat, shock, and vibration. Combine with the 6181X hazardous location computer for a complete system solution.
- The standard monitors are suited for control-room and non-hazardous location use.
- Cables and power supplies are included with these monitors.

For complete technical specifications, certifications, and environmental specifications on the industrial computers and monitors, refer to the Industrial Computers and Monitors Specifications Technical Data, publication IC-TD001.

Terminal Selection — 6176M Standard Monitors

	6186M-19PNSS				Stainless Steel
	6186M-19PTSS			x	

For information about accessories that are available for these terminals, see page 57.

Integrated Display Computers

The following tables list accessories for the 6181P integrated display computers.

Storage Drives

Cat. No.	Description	For Use With
6189V-CFSSD8GB	CompactFlash 8 GB solid-state drive	6181P (Series F)
6189V-CFSSD16GB	CompactFlash 16 GB solid-state drive	
6189V-6181TRAY	Empty 2.5" HDD Tray	
6189V-6181HDD100GB	Replacement 2.5-in. 100 GB HDD mounted in HDD Tray	
6189V-6181SSD32GB	Replacement 2.5-in. 32 GB SLC SSD mounted in SSD Tray	
6189V-6181SSD64GB	Replacement 2.5-in. 64 GB SLC SSD mounted in SSD Tray	
6189V-6181SSD256GB	Replacement 2.5-in. 256 GB MLC SSD mounted in SSD Tray	

Memory Modules

Cat No.	Description	For Use With
6189V-8GSODDR3	Replacement DDR3 Memory 2 x 4 GB SO-DIMM	6181P (Series F)
6189V-16GSODDR3	Upgrade DDR3 Memory 2 x 8 GB SO-DIMM	

Add-in Cards and Modules

Cat No.	Description	For Use With
6189V-PCIENET	Ethernet PCI card, 10/100/1000Mbps	6181P (Series F)
6189V-EXTPCI2	PCIe Slot Expansion Kit: Contains extended back panel and three riser cards total: • 1 PCIe 4x and 1 PCI • 2 PCIe 4x • 2 PCI	
6189V-PCIR	PCIe Slot Legacy Kit: Riser card for 1 PCI	

Power Supply

Cat. No.	Description	For Use With
6189V-PSU6181DC	Replacement DC Power Supply	6181P (Series F)(1)
6189V- PSU6181AC	Replacement AC Power Supply	6181P (Series F)(2)

(1) Must only be used with DC units.

(2) Must only be used with AC units.

Protective Screen Covers

Cat. No.	Description	Quantity	For Use With
6189V-SCRNCOVER12	Protective Screen Cover	10	6181P/F, 6181P (Series F)
6189V-SCRNCOVER15			6181P/F, 6181P (Series F)(1)
6189V-SCRNCOVER17			6181P/F, 6181P (Series F)

(1) Excludes 16:9 wide screen models.

Mounting Hardware

Cat. No.	Description	For Use With
6189V-MCLPS3	14 Replacement Mounting Clips	6181P (Series F)
6189V-BOOKBRKT	Bookshelf Bracket for Non-Display Model	6181P Non-Display (Series F)

Cables

Cat. No.	Description	For Use With
6189V-DVICBL2	Digital video cable, 2 m (6.5 ft)	6181P (Series F)
6189V-DVICBL5	Digital video cable, 5 m (16.4 ft)	

Industrial Keyboards and Pointing Devices

Cat. No.	Description	Material	For Use With
6189V-HPMOUSE	PS/2™ desktop mouse, three buttons	Stainless Steel	6181P (Series F)
6189V-HPMOUSEP	PS/2 panel-mount mouse, three buttons		
6189V-KBDEPS1	PS/2 desktop keyboard/mouse, 116 keys		
6189V-KBPEPS1	PS/2 panel-mount keyboard mouse, 116 keys		
6189V-KBDEPC1U	USB desktop keyboard/mouse, 116 keys	Polycarbonate	

Adapters

Cat. No.	Description	For Use With
6189V-DPDVI	Display Port to DVI-D Adapter	6181P (Series F)
6189V-DPVGA	Display Port to VGA Adapter	

Replacement Parts

Cat No.	Description	For Use With
6189V-ODD	Replacement and Upgrade Kit - CD/DVD	6181P (Series F)
6189V-USBKEY	Key for front USB port	
6189V-ACCESSBOX6181	Replacement accessory box	

Hazardous Location Computers

The following tables list accessories for hazardous location computers.

Memory Modules

Cat. No.	Description
6189X-4GDDR2	4 GB DDR2 memory

Mounting Hardware

Cat. No.	Description	Quantity
6189X-MCLPS	Mounting clips	10

Storage Drives

Cat. No.	Description
6189V-CFSSD8GB	CompactFlash 8 GB solid-state drive
6189V-CFSSD16GB	CompactFlash 16 GB solid-state drive

Non-display Computers

The following tables list accessories for the 6177R non-display computers.

Storage Drives

Cat. No.	Description	For Use With
6189V-35HDD500GB	3.5-in. 500 GB SATA hard disk drive	750R, 1450R (6177R Series C)
6189V-35HDDTRAY	Empty hard disk drive tray	

Memory Modules

Cat. No.	Description	For Use With
6189V-4GDDR3	4 GB DDR3 memory	750R, 1450R (6177R Series C)

Add-in Cards and Modules

Cat No.	Description	For Use With
6189V-PCIENET	Ethernet PCI card, 10/100/1000 Mbps	6177R
6189V-PCIBARMM	I/O card retention bracket	6177R Machine Mount
6189V-PCIBARRM	I/O card retention bracket	6177R Rack Mount

Mounting Hardware

Cat. No.	Description	For Use With
6189V-RACKSLIDES	Rackslides for mounting computer in rack cabinet	6177R Rack Mount

Cables

Cat. No.	Description	For Use With
6189V-DVIVGA	DVI-I to VGA adapter	6177R

Industrial Keyboards and Pointing Devices

Cat No.	Description	Material	For Use With
6189V-HPMOUSE	PS/2 desktop mouse, three buttons	Stainless Steel	6177R
6189V-HPMOUSEP	PS/2 panel-mount mouse, three buttons		
6189V-KBDEPS1	PS/2 desktop keyboard/mouse, 116 keys		
6189V-KBPEPS1	PS/2 panel-mount keyboard mouse, 116 keys		
6189V-KBDEPC1U	USB desktop keyboard/mouse, 116 keys	Polycarbonate	

Industrial Monitors

The following tables list accessories for the 6176M and 6186M industrial monitors.

Power Supply

Cat. No.	Description	For Use With
6189V-MPS3	AC-to-DC power adapter	6176M, 6186M

Protective Screen Covers

Cat. No.	Description	Quantity	For Use With
6189V-SCRNCOVER12	Protective screen cover	10	6186M-12
6189V-SCRNCOVER15			6176M-15, 6186M-15
6189V-SCRNCOVER17			6176M-17, 6186M-17

Mounting Hardware

Cat. No.	Description	Quantity	For Use With
6189V-MCLPS2	Mounting Clips	12	6176M
6189V-MCLPS3		14	6186M

Cables

Cat No.	Description	For Use With
6189V-DVICBL2	Digital video cable, 2 m (6.5 ft)	6176M, 6186M
6189V-DVICBL5	Digital video cable, 5 m (16.4 ft)	
6189V-TCHCBL2	Serial touch screen cable, 2 m (6.5 ft)	
6189V-VGACBL2	Analog VGA video cable, 1.8 m (6 ft)	
6189V-USBCBL2	USB touch screen cable, 1.8 m (6 ft)	

Notes:

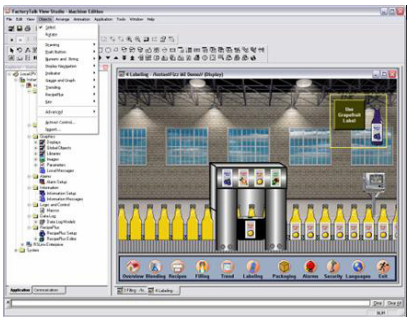
FactoryTalk HMI Software

FactoryTalk® View performance and visibility HMI software, including FactoryTalk View Machine Edition, FactoryTalk View Site Edition, FactoryTalk ViewPoint, and FactoryTalk View Studio are designed with a common look, feel, and navigation to help speed HMI development and training time.

Supporting the Rockwell Automation® Integrated Architecture® platform, FactoryTalk View software is part of the scalable and unified suite of monitoring and control solutions that are designed to span machine-level applications through supervisory-level HMI applications across a network. This suite of HMI software products offers you a common development environment, application reuse, and architecture to increase productivity, reduce operation costs, and improve quality.

Combining Rockwell Automation hardware with its software provides comprehensive application support from an industry leader. For a complete list of available HMI software, visit http://www.rockwellautomation.com/rockwellsoftware.

FactoryTalk View Machine Edition Software



FactoryTalk View Machine Edition (ME) software supports both open and embedded operator interface solutions for monitoring and controlling individual machines or small processes. This software features a consistent operator interface across multiple platforms, including Microsoft Windows 8.1, 7, XP, Server, and Embedded Compact solutions. Factory Talk View ME software consists of a design and runtime environment.

FactoryTalk View Studio Software
FactoryTalk View Studio software is the design environment for creating and testing HMI applications, including graphic displays, trends, alarms, and real-time animation. Runtime files can be generated to run on a PanelView™ Plus terminal or industrial computer.

FactoryTalk View ME Station
FactoryTalk View ME Station is the runtime environment for HMI applications. FactoryTalk View ME Station is automatically installed and activated on PanelView Plus terminals. FactoryTalk View ME Station activation is required when running HMI applications on industrial computers.

FactoryTalk View ME software offers many advantages:

- Alarms to alert operators to conditions that require immediate action
- Security to restrict operator access to specific displays
- RecipePlus for machine or process recipe management
- Runtime language switching supports up to 20 languages per runtime application(1)
- Global and predefined objects are time and memory savers
- RSLogix 5000® and Studio 5000 Logix Designer® process faceplates
- Ability to convert runtime application to design application
- Parameter passing to facilitate reuse of displays and design efficiency

(1) An application can support up to 40 languages, but only 20 languages are allowed in the runtime application.

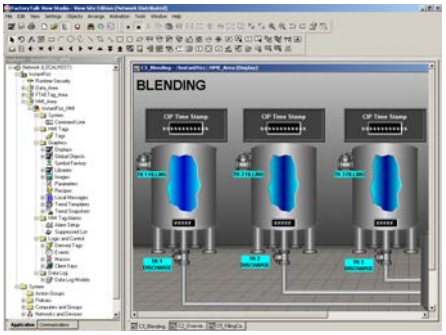
FactoryTalk View Site Edition Software

FactoryTalk View Site Edition (SE) software is an HMI for developing supervisory-level monitoring and control applications. This distributed and scalable architecture can be applied to a standalone, one-server/one-user application or to multiple users who interface with multiple servers. Runtime servers and clients are supported for customers to develop and deploy a multi-server/multi-client application.

FactoryTalk View SE applications are created and tested within the FactoryTalk View Studio design environment:

- Share data and seamless integration with other FactoryTalk enabled products. The FactoryTalk Services Platform provides common services such as security, alarming, and diagnostics across products.
- Optimize plant communication with FactoryTalk Live Data and premier connectivity to Rockwell Automation controllers.
- Access tag information directly in the controller, which eliminates the need to create HMI tags.
- Configure an application from anywhere on the network and make changes to a running system with a remote, multi-user configuration capability.
- Define graphic displays once and reference them throughout a distributed system.
- Provide an audit trail of operator and alarm information in a centralized log database.
- Customize the operator experience by using client-side VBA and the exposed graphics object model.
- Maximize system availability with online creation and editing of graphics and optional server redundancy.

FactoryTalk View Studio Software



FactoryTalk View Machine Edition and FactoryTalk View Site Edition share a common design environment called FactoryTalk View Studio for creating applications. The ability to edit and reuse projects in FactoryTalk View Studio improves portability between embedded machine and supervisory HMI systems.

With FactoryTalk View software, all products in the suite are built on the same integrated, scalable architecture. Application developers can import entire machine-level applications into supervisory-level applications or drag individual components and drop them right into supervisory projects, which saves development time and reduces engineering and training costs.

Plus, you can protect your current HMI investments by importing PanelBuilder® 32 (PanelView™) applications into FactoryTalk View ME software and RSView® 32 applications into FactoryTalk View SE software.

With FactoryTalk View Studio software, you can do the following:

- Configure one operator station or an entire distributed application from one location.
- Access tags from OPC servers throughout the system via a tag browser that presents direct controller tags and HMI tags in a logical hierarchy.
- Remotely configure RSLinx® and FactoryTalk View SE servers.
- Create displays by using a full-featured graphics editor.
- Define display test in multiple languages, allowing operators to switch the language at runtime.
- Use pre-engineered faceplates to interface with the process control functions in the Logix controllers.

FactoryTalk ViewPoint Software

An add-on to FactoryTalk View SE software and PanelView Plus 6 or 7 terminals, FactoryTalk ViewPoint software provides on-demand access to important information about your plant or process from a web browser. Plant managers, supervisors, OEMs, system integrators, and other key stakeholders can now access, monitor, and interact with plant floor operations from virtually any location. The thin-client configuration means no client software to install and maintain, which lowers the total cost of ownership:

•Fully scalable, animated web applications viewable in the office, at home, or on the road.

•Gives managers, OEMs, and system integrators read and write capability to both view and control real-time plant floor operations by logging in via an internet browser.

- Gain fast access to real-time information by using a standard web browser.
- Supports multiple browsers and client devices for increased flexibility.
- Lets FactoryTalk View projects be web-enabled without requiring application changes.
- Monitor and control HMI applications, perform diagnostics, and provide remote support without having to be at customer sites.

Software Comparison

Technology

Customer Requirements	FactoryTalk View Site Edition (SE)	FactoryTalk View Machine Edition (ME)
Operating systems (32-bit)	• Windows 8.1 Professional • Windows 8.1 Enterprise • Windows 8 Professional • Windows 8 Enterprise • Windows 7 Professional or Professional SP1 both supported • Windows Server 2008 Standard SP2 and 2008 R2 Standard SP2 supported • Windows XP Professional SP3 • Windows Server 2003 R2 Standard SP2	
Operating systems (64-bit)	• Windows 8.1 Professional • Windows 8.1 Enterprise • Windows 8 Professional • Windows 8 Enterprise • Windows 7 Professional SP1 • Windows 7 Enterprise SP1 • Windows 7 Ultimate SP1 • Windows Server 2012 Standard • Windows Server 2012 R2 Standard • Windows Server 2008 Standard SP2 • Windows Server 2008 R2 Enterprise SP1 or 2008 Server R2 Standard SP1 XP Professional 32-bit SP3 supported only, not 64 bit • Windows Server 2008 R2 Standard SP1	
Embedded platforms		x
Windows domain security	x	x

Features

Customer Requirements	FactoryTalk View Site Edition	FactoryTalk View Machine Edition
Animation[1]	And touch	No touch animation
Alarms	• FactoryTalk Alarms and Events • HMI alarms • Digital and analog • Defined alarm severities • Alarm log	• Tag-based (from controller) • Alarm log
Data logging	• 20 data log models per project • Each with up to 10,000 tags • Log to ODBC or proprietary database	• 1 data log model per project • With up to 100 tags • 1,000 K records max • Export to dbf
Trend version	TrendX 4.0	TrendX 4.0 subset
Security	• Security assigned to tags, graphic displays, macros, commands, OLE objects • Local or Windows security	• Display-based • Local or Windows security
Other features	• Test run macros • Derived tags • Event detector	• Test run macros • Derived tags • S/BTest RunMacrosDerived Tags
Price model	• Display-based pricing • Multiple levels	• Included with PanelView Plus 6 or display-based pricing • Multiple levels for FactoryTalk View ME Station

(1) Includes visibility, color, fill, horizontal and vertical position, width, height, rotation, horizontal and vertical slider, and more.

Studio 5000 View Designer® HMI Software

Studio 5000 View Designer® is the development environment for PanelView 5500 operator interface terminals, and is included as part of the Studio 5000 Automation Engineering and Design Environment™. This integrated environment allows engineers to enter configuration information only once and leverage it across the entire automation design system. The integration of the PanelView 5500 with Studio 5000® can help you build modern applications more easily and make data-driven decisions faster.

Using Studio 5000 View Designer with ControlLogix® controllers provides enhanced integration with features such as:

- Logix-based alarms that are automatically available on the PanelView 5500 platform. No alarm configuration is necessary in the HMI application.
- Pre-configured system banner, alarm summary, and diagnostic displays that reduce design time and offer a consistent user experience.
- High-speed HMI buttons that provide quick response and feedback for machine-jogging applications.
- Logix tag extended-property support that helps to develop richer content.
- An intuitive View Designer environment that reduces configuration time.
- Scalable vector graphics that automatically adjust objects and screens to any terminal size.
- A searchable toolbox of graphic elements with built-in animations that simplify configuration.

Operating System and Service Pack Compatibility

This version of the Studio 5000 View Designer application has been tested on the following operating systems:

- Microsoft® Windows® 7 Professional (64-bit) with Service Pack 1
- Microsoft 7 Home Premium (32-bit) with Service Pack 1
- Microsoft Windows Server 2008 R2 Standard Edition with Service Pack 1
- Microsoft Windows 8 Professional (64-bit)
- Microsoft Windows 8.1 Professional (64-bit)
- Microsoft Windows Server 2012 Standard Edition (server version of Windows 8)

  Note: While the Windows 8 and Windows 8.1 operating systems run on many touch-enabled devices, various features of the View Designer application may not be touch-enabled. Most functions are expected to work with touch, but the software has only been tested with a keyboard and mouse.

This version of the Studio 5000 View Designer application is expected to operate correctly on all other editions and service packs of the following operating systems, but has not been tested:

- Microsoft Windows 7
- Microsoft Windows Server 2008 R2
- Microsoft Windows 8
- Microsoft Windows Server 2012
- Microsoft Windows Server 2012 R2

Software Selection

To choose your preferred language, replace the xx in the catalog number with EN for English, DE for German, FR for French, JP for Japanese, or ZH for Chinese.

FactoryTalk View Machine Edition (ME) Software

Cat. No.	Description
9701-VWSTMxxE	FactoryTalk View Studio for Machine Edition - Configuration software to develop and test machine level HMI applications. FactoryTalk View Machine Edition includes RSLinx® Enterprise and KEPServer Enterprise software.

To choose your preferred language, replace the xx in the catalog number with EN for English, DE for German, FR for French, JP for Japanese, or ZH for Chinese.

FactoryTalk View Machine Edition (ME) Station

Cat. No.	Description [(1) (2)]
9701-VWMR015AxxE	FactoryTalk View ME Station runtime 15 displays
9701-VWMR030AxxE	FactoryTalk View ME Station runtime 30 displays
9701-VWMR075AxxE	FactoryTalk View ME Station runtime 75 displays
9701-VWMR250AxxE	FactoryTalk View ME Station runtime 250 displays RS-232 operating cable, 9-pin D-shell to 8-pin Mini DIN

(1) FactoryTalk View Machine Edition Station is the Runtime environment where FactoryTalk View ME projects created with FactoryTalk View Studio software are run on any computer with a Windows operating system.
(2) FactoryTalk View ME Station Runtime is included with all PanelView Plus 6 or PanelView Plus 7 terminals.

To choose your preferred language, replace the xx in the catalog number with EN for English, DE for German, FR for French, JP for Japanese, or ZH for Chinese.

FactoryTalk View Site Edition (SE) Software

Cat. No.	Description[(1)]
9701-VWSTxxE	FactoryTalk View Studio for FactoryTalk View Enterprise- configuration software to develop and test machine level and supervisory level HMI applications
9701-VWSCWAxxE	FactoryTalk View SE Client - software to view and interact with FactoryTalk View SE Servers [(2)]
9701-VWSCRAxxE	FactoryTalk View SE View Client - provides read-only capabilities
9701-VWSB015AxxE	FactoryTalk View SE Station 15 display
9701-VWSB025AxxE	FactoryTalk View SE Station 25 display
9701-VWSB100AxxE	FactoryTalk View SE Station 100 display
9701-VWSB250AxxE	FactoryTalk View SE Station 250 display
9701-VWSB000AxxE	FactoryTalk View SE Station unlimited display
9701-VWSS025LxxE	FactoryTalk View SE Server 25 display with RSLinx® Enterprise
9701-VWSS100LxxE	FactoryTalk View SE Server 100 display with RSLinx Enterprise
9701-VWSS250LxxE	FactoryTalk View SE Server 250 display with RSLinx Enterprise
9701-VWSS000LxxE	FactoryTalk View SE Server unlimited display with RSLinx Enterprise

(1) FactoryTalk View Station and FactoryTalk View SE Server include RSLinx Enterprise and RSLinx Classic software, version 3.70.
(2) FactoryTalk View SE Server stores HMI project components and serves to clients, for example, graphic displays.

FactoryTalk ViewPoint Software

Cat. No.[1]	Description[2]
9522-VWP01RENE	FactoryTalk ViewPoint 1-client system
9522-VWP03RENE	FactoryTalk ViewPoint 3-client system
9522-VWP05RENE	FactoryTalk ViewPoint 5-client system
9522-VWP10RENE	FactoryTalk ViewPoint 10-client system
9522-VWP25RENE	FactoryTalk ViewPoint 25-client system
9522-VWP50RENE	FactoryTalk ViewPoint 50-client system

(1) Order any of these catalog numbers to use FactoryTalk ViewPoint software with FactoryTalk View SE network or local applications.

(2) FactoryTalk ViewPoint server and one client access license is included with the purchase of a PanelView Plus 6 or PanelView Plus 7 terminal. No other catalog numbers are required to use FactoryTalk ViewPoint software with PanelView Plus 6 or PanelView Plus 7 terminals.

Third-party Connectivity

Cat. No.	Description
9301-OPCSRVENE	KEPServer Enterprise FactoryTalk View Site Edition and FactoryTalk View Machine Edition

Studio 5000 HMI Software

Additional Resources

These documents contain more information about related products from Rockwell Automation.

Resource	Description
PanelView 5500 Terminal Specifications Technical Data, publication 2715-TD001	Provides technical specifications, certifications, and environmental specifications for the PanelView 5500 terminals.
PanelView Plus 7 Performance Terminals Technical Data, publication 2711P-TD009	Provides technical specifications, certifications, and environmental specifications for the PanelView™ Plus 7 Performance terminals.
PanelView™ Plus 7 Standard Terminals Technical Data, publication 2711P-TD008	Provides technical specifications, certifications, and environmental specifications for the PanelView™ Plus 7 Standard terminals.
PanelView Plus 6 Specifications Technical Data, publication 2711P-TD005	Provides technical specifications, certifications, and environmental specifications for the PanelView Plus 6 terminals.
MobileView Tethered Operator Terminal Technical Data, publication 2711T-TD001	Provides technical specifications, certifications, and environmental specifications for the MobileView tethered operator terminals.
PanelView 800 Terminals Technical Data, publication 2711R-TD001	Provides technical specifications, certifications, and environmental specifications for the PanelView 800 terminals.
Industrial Computers and Monitors Specifications Technical Data, publication IC-TD001	Provides technical specifications, certifications, and environmental specifications for the industrial computers and monitors.
PanelView Plus 6 Terminals to PanelView Plus 7 Terminals Catalog Number Conversions Migration Guide, publication 2711P-AP004	Provides information on how to convert PanelView™ Plus 6 terminals to the new generation terminals: PanelView Plus 7 Performance terminals and PanelView Plus 7 Standard terminals.
Industrial Automation Wiring and Grounding Guidelines, publication 1770-4.1	Provides general guidelines on how to install a Rockwell Automation® industrial system.
Product Certifications website, http://www.rockwellautomation.com/global/certification/overview.page	Provides declarations of conformity, certificates, and other certification details.

You can view or download publications at http://www.rockwellautomation.com/literature/. To order paper copies of technical documentation, contact your local Allen-Bradley distributor or Rockwell Automation sales representative.

Rockwell Automation Support

Use the following resources to access support information.

Technical Support Center	Knowledgebase Articles, How-to Videos, FAQs, Chat, User Forums, and Product Notification Updates.	www.rockwellautomation.com/knowledgebase
Local Technical Support Phone Numbers	Locate the phone number for your country.	www.rockwellautomation.com/global/support/get-support-now.page
Direct Dial Codes	Find the Direct Dial Code for your product. Use the code to route your call directly to a technical support engineer.	www.rockwellautomation.com/global/support/direct-dial.page
Literature Library	Installation Instructions, Manuals, Brochures, and Technical Data.	www.rockwellautomation.com/literature
Product Compatibility and Download Center (PCDC)	Get help determining how products interact, check features and capabilities, and find associated firmware.	www.rockwellautomation.com/global/support/pcdc.page

Documentation Feedback

Your comments will help us serve your documentation needs better. If you have any suggestions on how to improve this document, complete the How Are We Doing? form at http://literature.rockwellautomation.com/idc/groups/literature/documents/du/ra-du002_-en-e.pdf.

Rockwell Automation maintains current product environmental information on its website at http://www.rockwellautomation.com/rockwellautomation/about-us/sustainability-ethics/product-environmental-compliance.page.
