

## IEC Terminal Block Accessories

## Partition and Separation Plates

## Partition Plates and Separation Plates

Partition plates allow visual and electrical separation of terminal groups and provide the necessary electrical spacing between adjacent insulated jumpers or between exposed ends of cut jumpers.

Separation plates consist of flexible thermoplastic material and are used between terminal blocks to isolate adjacent center jumpers both visually and electrically.

| Dimensions<br>Width x Length x Height              | For Use With                                                                           | Color  | Pkg Qty. | Cat. No.     |
